

Parking space user regulations Flug-Hafen-Saarland GmbH

Parking anywhere on the airport grounds is only permitted in the designated areas and only with a valid parking ticket.

Rental agreement conditions for the parking of vehicles

The lessor provides the lessee with a parking space for their motor vehicle (vehicle) in accordance with the following regulations. Upon acceptance of the parking ticket and entry into the parking facility, a rental agreement is concluded. The guarding, safekeeping or monitoring of the vehicle and the provision of insurance cover do not form part of the agreement. The use of the car park takes place at the user's own risk.

By using the parking spaces, the conditions for the parking of vehicles as well as the published airport user regulations are acknowledged.

Rental price – parking duration

The rental price is calculated for each occupied parking space according to the displayed price list. The parking fee is calculated on a 24-hour basis, i.e. 24 hours after the time of entry, another day will be charged. Once payment has been made, the lessee must leave the car park immediately. For this purpose, they must return to their vehicle immediately after paying and leave the parking facility via the exits. If the lessee stays in the parking facility longer than it takes to leave, the parking fee will be recalculated and accrue from the time of payment.

The maximum parking duration is 6 weeks, unless a special written agreement has been concluded. Once the maximum parking period has ended, the lessor is entitled to remove the vehicle at the lessee's expense. Furthermore, until the vehicle has been removed, the lessor is entitled to fees as per the parking price list. Prior to this, the lessor shall instruct the lessee or, if they are unknown, the vehicle's owner in writing to remove the vehicle under threat of eviction. These instructions will not be issued if the lessor is unable to determine the vehicle's owner after making reasonable efforts to do so, e.g. by requesting information from the vehicle registration office. In the event that the parking ticket or the exit coin/card is lost, the rental price must be paid for 6 weeks as per the displayed price list, unless the lessee can prove a shorter or the lessor a longer parking duration than 6 weeks. Any transfer or subletting of the car parking space requires the lessor's consent.

Parking spaces for people with reduced mobility

The parking spaces provided for this purpose may only be used by vehicles displaying the blue EU parking permit for people with severe walking impairments. The “G” mark on its own does not entitle drivers to use these parking spaces. These parking spaces are marked by corresponding traffic signs with an additional wheelchair-user symbol and corresponding floor markings displaying the same pictogram. These spaces may only be used if the person to whom the parking permit has been issued is driving the vehicle or travelling in the vehicle.

In case of unauthorised use of these parking spaces, the provisions for contractual penalties and towing set out in these conditions for the parking of vehicles shall apply.

Contractual penalties/towing

In the event that the vehicle is parked incorrectly or if the maximum permitted or paid for parking duration is exceeded, the vehicle’s driver will be charged a contractual penalty of € 20.

If the violation continues for more than 24 hours after the end of the permitted or paid for parking period, an additional contractual penalty charge of € 20 will apply for each additional completed 24-hour period. Contractual penalties are limited to a total of € 140 for a single, uninterrupted parking period. In addition to the contractual penalty, the parking or usage fee owed for the actual use duration shall remain payable.

The right to have the vehicle removed or moved in accordance with the statutory provisions and to recover the necessary costs shall remain unaffected.

Failure to pay the contractual penalty/parking fees may result in a prohibition of use of the car parking areas.

Furthermore, vehicles that have been parked incorrectly within the car parking areas or that have been left there beyond the maximum permitted parking duration may be removed at the driver’s risk and expense.

The lessor's liability

Subject to these regulations, the lessor is liable for all damages caused by them, their employees or agents. They are not liable for any damage caused by natural events or by the lessee’s own behaviour or that of third parties. The lessee is obliged to inform the lessor’s staff immediately of any obvious damage to their vehicle before leaving the parking facility.

The lessee must also notify the lessor in writing of any other damage to their vehicle within a period of 7 days after leaving the parking facility. If notification is not given in a timely manner, all warranty and compensation claims of the lessee are excluded.

If the lessee asserts claims for damages against the lessor, the former is responsible for proving that the lessor has culpably violated their contractual obligations. The lessor's liability due to slight negligence is limited to € 100,000 in relation to property damage or financial loss. In the event of property damage or financial loss caused by the lessor's slight negligence, the lessee is obliged to participate in the damage settlement by contributing a personal share of € 300.

The lessee's liability

The lessee is liable for all damages they, their employees, accompanying person(s) or agents culpably cause to the lessor or third parties. In this respect, the lessee is also liable for any culpably caused contamination of the parking facility as a result of behaviour that exceeds the use outlined in these conditions for the parking of vehicles. This also includes the depositing of waste within the parking facility. All costs incurred will be charged to the lessee in conjunction with an additional processing fee of € 100.

Lien

The lessor is entitled to a right of retention and a statutory lien on the lessee's vehicle as a result of the lessor's claims under the rental agreement. If the lessee is in default with the settlement of the lessor's claims, the latter may enforce the lien at the earliest two weeks after issuing their threat.

Terms of use

Vehicles must be driven at walking speed. Parked cars must be carefully locked and secured in accordance with normal practice. The instructions of the supervisory staff must be obeyed. The provisions of the road traffic regulations (StVO) apply.

The following are prohibited in the parking facility:

- smoking and the use of fire,
- the parking of vehicles with leaking fuel, oil, coolant or air conditioning tanks and carburettors as well as other damage that might affect the parking facility's operation,
- the parking of vehicles without a valid motor vehicle licence,
- the unauthorised parking of vehicles outside of the parking space markings, e.g. on roads, across two parking spaces, in front of emergency exits, in parking spaces for

persons with limited mobility, in parking spaces marked as reserved or on hatched areas.

Further provisions and the consequences of ineffective provisions

In addition to these conditions for the parking of vehicles, the notices displayed by the lessor shall apply. Should any provision of these conditions for the parking of vehicles be or become ineffective or inapplicable in whole or in part, this shall not affect the remaining provisions.
